

**Esempi Applicativi**

**Anwendungsbeispiele**

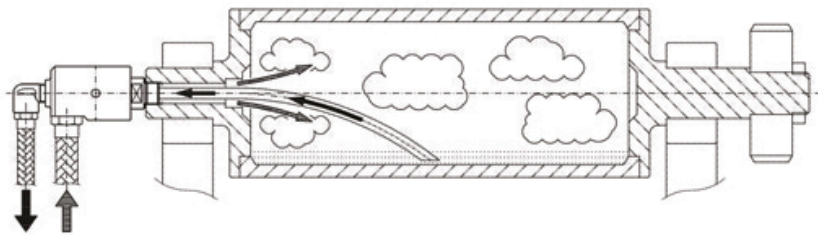

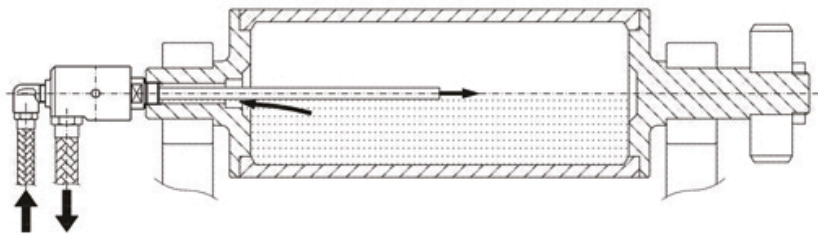

**Application Examples**

**Ejemplos de Aplicaciones**

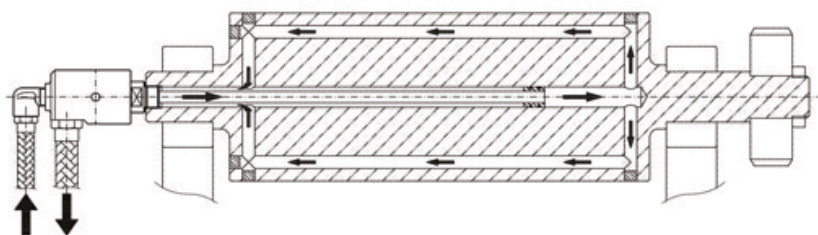

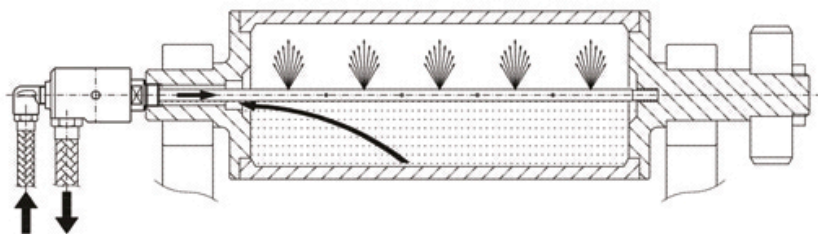

- I** Rotoflux a un passaggio
- UK** Rotoflux single passage
- DE** Rotoflux Einweg-Ausführung
- E** Rotoflux a via simple

- I** Rotoflux a doppio passaggio con sifone fisso
- UK** Rotoflux double passage stationary siphon
- DE** Rotoflux Zweiwege-Ausführung für stehendes Innenrohr
- E** Rotoflux de doble vía con sifón fijo

- I** Rotoflux a doppio passaggio con sifone rotante
- UK** Rotoflux double passage rotating siphon
- DE** Rotoflux Zweiwege-Ausführung für rotierendes Innenrohr
- E** Rotoflux de doble vía con sifón rotativo

## Esempi Applicativi

## Anwendungsbeispiele

### Application Examples

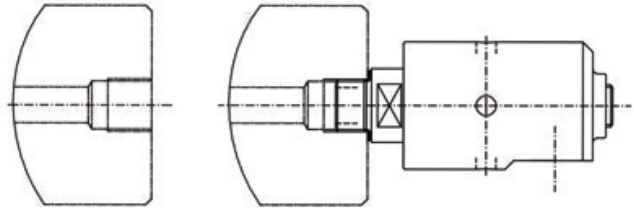

### Ejemplos de Aplicaciones

**I** Montaggio con filettature G , UNF

**UK** Mounting with G , UNF threads

**DE** Montage von G, UNF Gewinde

**E** Montaje con

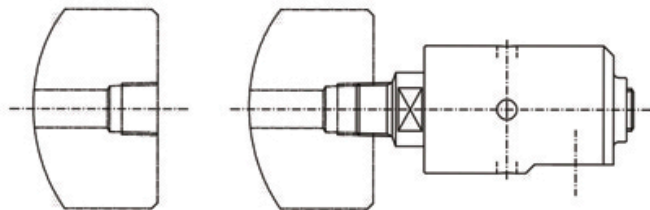

**I** Montaggio con filettature NPT , PT

**UK** Mounting with NPT , PT threads

**DE** Montage von NPT, PT Gewinde

**E** Montaje con rosca NPT, PT

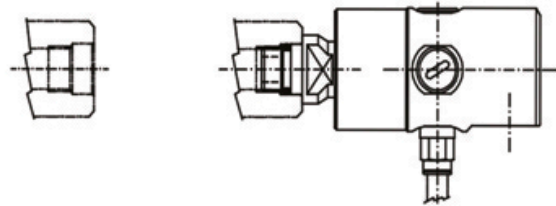

**I** Montaggio con filettature e centraggio per alte velocità

**UK** Mounting with thread and pilot for high speed application

**DE** Montage von Gewinde mit Führungszapfen für hohe Archzahlen

**E** Montaje con rosca y centrado para velocidad

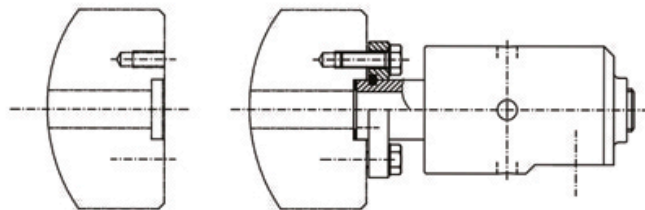

**I** Montaggio con rotore flangiato per rotazioni sia destrorse che sinistrorse.

**UK** Mounting with rotor flange for both clockwise and counterclockwise rotation

**DE** Montage von Rotorflansch, für links-und rechtsdrehende Drehungen

**E** Montaje con rotor embridado para rotaciones horarias y anti-horarias.

**I** Montaggio con tubo sifone in due parti, per applicazioni con tubi sifoni molto lunghi o alte velocità

**UK** Mounting with siphon splitted in two parts for application with long siphon or high speed rotation

**DE** Montage von zweiteiligem Innenrohr, für Anwenfungen mit sehr langen innenrohren oder hohen Drehzahlen

**E** Montaje con sifón dividido en dos partes para aplicaciones de ala velocidad o con sifones muy largos
